

Posters are 24" x 36" and printed on 12oz. outdoor vinyl with matte finish for installation on each side. Pigment based inks ensure a long outdoor life.

The center pad folds down and provides a platform to weigh the display down for wind resistance. It can also be cabled for extra security.

Stainless steel springs tension the poster with reinforced grommets in all four corners.

The center pad collapses down for easy storage.

The Outpost is lightweight and easily folds down for transport in most vehicles.

The OutPost is ideal for sidewalk, pedestrian targeted promotions. It can easily be brought inside at the end of business day. The frame is fabricated from cold rolled steel, stainless steel and finished in an exterior grade, powder coat finish.

Specifications, pricing and final design subject to change without notice. Industrial design registration and other patents pending.
